## RESOURCE GUIDE

A guide to community services for health care, mental health, substance abuse, housing assistance, job training, child care and other needs.

Provided through the Fayette County Model Court initiative, a collaboration between Family Court and the community.

# Fayette County Resource Guide

The Fayette County Resource Guide is designed to help individuals, families and service providers locate needed resources in Fayette County, Kentucky.

This guide was developed as part of the Fayette County Model Court initiative, which is working to decrease the time youth spend in foster care by improving services for youth and their families through better collaboration between Family Court and the community.

Fayette County Model Court is one of several model courts in Kentucky funded by a grant from the Court Improvement Program. The Court Improvement Program is a federally funded project to improve court practice in child abuse, neglect and dependency cases.

The Department of Family and Juvenile Services of the Administrative Office of the Courts oversees Court Improvement Program initiatives for Kentucky.
